SUFFRAGISTS SURE THE HOUSE IS SAFE

(By Associated Press)
WASHINGTON, Jan. 10.—One of the long and hard fought goals of the woman's suffrage cause seemed to be in sight today when the House took up the debate on the constitutional amendment. Backed by the approval of President Wilson, suffragists were sure the Susan B. Anthony amendment would poll more than the necessary two-thirds when the House began voting at 5 this afternoon.

So certain were suffragists of success in the House that they already had turned their attention to the Senate where the amendment waits on the calendar but without such favorable prospects. They are hopeful, however, that with the Presidents aid they will break down the opposition and secure passage thereto.

Women packed the galleries. It was a field day for the suffragists and buoyant with expectation of victory they made the most of the occasion.

Restaurants May Close in Gotham
(By Associated Press)
NEW YORK, Jan. 10.—Fuel administrator made ready today to close restaurants, cabarets, and other amusement places unless coal supplies increased sufficiently to meet all requirements.

A tentative plan was outlined by Albert H. Wiggin, state fuel administrator classifying the needs on a priority basis. If this is put into effect, schools and public utilities will receive coal first, next the very poor the apartment houses and office buildings manufacturers and all others last.

Under this plan closing hours will be fixed for restaurants and cabarets. Probably it was thought between 9 p. m. and 6 p. m.

GAS FIGHT
(Continued From Page 1)

Virginia belongs to West Virginians the same as the air. However it must be understood that this association does not try to limit the use of gas to West Virginia but insists upon their rightful share of it.

"The scope and purpose of the West Virginia Gas Consumers' Association is largely to secure regulations from the Public Service Commission which will insure an adequate amount of gas to domestic consumers in West Virginia and to industrial consumers. The association has stood for the domestic consumer and urged provisions for him at all times since it sprang into existence. The small membership fees will raise a sum of money which will be expended in costs and fees to serve the domestic consumers. Any impression that this is a manufacturers' movement is mistaken. The effort is to serve industrial consumers as well as domestic consumers. Eminent counsel has been retained in various communities for the preparation of petitions which will bring the whole matter to the attention of the Public Service Commission. The major part of the proofs to be adduced are counted upon to come from domestic consumers."

Before the week ends it is the plan to get the campaign presented to local people through many four minute speeches in the theaters. A committee of three men consisting of Frank Raymond, chairman; Arthur Martin and Glenn F. Barnes will organize the "Four Minute Men."
